Noted Chicago Pub-  
lisher Is Dead at  
Washington.

## INVESTIGATOR

Former Publisher Owned Many  
Chicago Papers—Aided In  
Investigation of Senator  
Lorimer.

WASHINGTON, Oct. 17. (AP)—  
H. H. Kohlsaat, former well known  
Chicago publisher and the friend of  
many presidents, died suddenly at  
the home of Secretary Hoover here  
today.

Herman H. Kohlsaat was well  
known as a journalist through his  
many years' connection with Chicago  
newspapers.

He owned and edited at different  
times the Chicago Inter-Ocean,  
Chicago Times-Herald, Chicago  
Record-Herald and Chicago Evening  
Post.

He was active in the public af-  
fairs of Chicago as an editor and  
private citizen for 30 years. He  
was a republican and a close per-  
sonal friend of the late President  
McKinley.

Mr. Kohlsaat played a prominent  
part in the investigations that re-  
sulted in the United States Senate  
declaring vacant the seat of Sen-  
ator William Lorimer. He furnished  
the information that resulted in  
bringing the Lorimer case before  
the senate the second time after  
Lorimer had been vindicated in the  
first hearing.

Mr. Kohlsaat was born at Albion,  
Edwards County, O., March 22,  
1853, and was brought to Galena,  
Ill., by his parents when a child.

He was educated in Galena.

He presented a status of General  
U. S. Grant to the city of Galena  
and gave liberally to charity.

## GRANDSTAND USED FOR FIRST TIME

Students and Teachers Turned Out  
En Masse and the Stand  
Was Filled to Capacity.

HARROGATE, Tenn., Oct. 17.—  
The new grand stand erected at  
Lincoln Memorial University  
through the gift of Myers Y. Cooper,  
a prominent business man of  
Cincinnati and a member of the  
Board of Directors, was used for  
the first time yesterday at the  
chapel service. The students and  
teachers were out en masse for the  
meeting and the grandstand was  
filled to capacity.

The college song was sung and  
the yells were led by Ned Watts.  
Enthusiasm was at its height, and  
a motion was unanimously carried  
to send a telegram to Myers Y.  
Cooper to come for the bonfire and  
pep meeting Friday night and for  
the first game of the season on the  
L. M. U. gridiron with Tusculum  
tomorrow. W. I. Jones, extension  
secretary, will be in charge of the  
pep meeting. Tusculum is reported to  
have one of the strongest teams  
in East Tennessee and the game  
tomorrow promises to be close and  
hard fought.

Coach Garrett is not sure of his  
line-up due to the injuries that  
three of his players received in the  
Maryville game two weeks ago.  
Gann is very likely to go into the  
game, but Earle Wilson, and  
"Sparky" Williamson are out for  
a good part of the season.

The final preparations of the ath-  
letic field has been made and with  
the new layout of the grounds the  
gridiron is one of the best to be  
found anywhere.

A combined party and pep meet-  
ing will be held in honor of the  
Tusculum team Saturday evening at  
the Conservatory.

All Middlesboro football fans are  
especially invited over for the game  
tomorrow afternoon. The game  
starts at 2:30.

## Normal Gridders Rest This Week

Associated Press.  
RICHMOND, Ky., Oct. 17.—  
While no game is on the football  
schedule of the Eastern Normal  
School this week end, the team is  
working hard for its game with  
Georgetown College Saturday, Oct.  
25.

Fighting spirit won the game  
last Saturday, 19 to 6, from Cam-  
berland College's eleven, coaches  
said today. The visitors scored on  
Eastern in the last two minutes of  
play.

Capt. Hyatt of Springfield is  
concentrating on tackling. He was  
elected head of the Eastern eleven  
just before the Cumberland game  
by unanimous vote.

## Ky. Cotton Fields Are Inspected

Associated Press.  
PADUCAH, Ky., Oct. 17.—West  
Kentucky's experiment with cotton  
has been viewed at first hand in  
demonstration tours of Ballard and  
Carlisle counties, farmers reported  
today. They returned from inspec-  
tion yesterday and the day before  
of about a dozen cotton fields. Ex-  
perts talked encouragingly for  
furtherance of the experiment.

Among them were H. S. Nickols,  
district farm agent of western  
Tennessee; J. B. Freeman, super-  
intendent of the Kentucky experi-  
ment fields; Lexington; and H. J.  
Schweitzer, head of the agricultur-  
al department of the Illinois Cen-  
tral Railway.

## FOOT BALL RULES THIS WEEK END

Army to Meet Notre Dame; Michi-  
gan Plays Illinois, and Penn-  
States Comes to Georgia.

NEW YORK, Oct. 17.—Sat-  
urday's football schedule is replete  
with thrills. In the East the Army  
will play Notre Dame's Irish aggrega-  
tion on the polo grounds at New  
York. It promises to be one of the  
big games of the year. Notre Dame  
is sure to resort to an aerial attack  
to meet the line plunging Army.  
The result of the fray will be wait-  
ed with impatient interest by the  
sporting world.

In the West, Michigan will meet  
Illinois at Urbana, Illinois. These  
two great teams tied for the Big  
Ten Conference championship last  
year. It will be a bitterly contested  
game to the last minute of play as  
another Conference championship  
may hinge on the result. Illinois is  
a slight favorite at present because  
of Michigan's low tally against the  
Michigan farmers last Saturday,  
but you can depend upon it that  
Coach Yost of Michigan has mapped  
out a campaign which will be  
hard to cope with.

Georgia Tech. will take on Penn. State at At-  
lanta, Georgia. The Quaker elec-  
tion rules a strong favorite but the  
small technical school is sure to  
give them a run for their money.

## REPUBLICANS ASK ANOTHER MILLION

This Sum Would Complete Three  
Million Dollar Budget Which  
Is Need in Campaign.

CHICAGO, Oct. 17. (AP)—The  
Republican campaign organization  
intends to collect an additional  
one million three hundred thousand  
dollars, if it is possible between  
now and election day, William But-  
ler, Chairman of the Republican  
National committee testified today,  
before a special senate campaign  
fund investigating committee. This  
sum would complete a three million  
dollar budget which the campaign  
committee decided at the outset to  
be necessary for the conduct of a  
"vigorous campaign." This is a  
modest amount considering the ex-  
penditures heretofore used, Butler  
told the senate committee.

was learned here today.

year ago founded the colony on  
Wrangel Island is reported to have  
been carried off by the Russians,  
said here today, that the colony was  
composed of thirteen Eskimos and  
one American. That it was not  
founded on behalf of Great Britain  
but the United States, through an  
American corporation, Stefansson  
said that the "situation was up to  
the United States."

## KIDS' DIMES AN AID TO ORPHANAGE

American Men and  
Women Are Con-  
ducting Refuge

## FOND OF AMERICA

Self-Help Methods Characterize  
the Work in this Orphanage as  
All the Duties are Performed  
by the Children.

ALEXANDROPOL, Arm. Oct.  
17. (AP)—Far out on the broad,  
barren upland plateau which di-  
vides Russian Armenia from Tur-  
key and Persia is a small group of  
American men and women who are  
conducting the largest and most  
unusual orphanage in the world. In  
their care and under their tutelage  
are 18,000 Armenian boys and  
girls who have been salvaged from  
the wreckage of war and ruin in  
Asia Minor. They are kept alive  
by the nickels and dimes of Ameri-  
can children and by contributions  
of food and clothing from the Ameri-  
can people.

Five thousand of the orphans are  
tiny girls from two to seven years  
old. These are in charge of Miss  
Janet McKay, of Buffalo, N. Y.,  
who is called by the natives "the  
Mother of Armenia." Miss McKay  
looks after her great family of ad-  
opted children with all the care, so-  
litude and affection of an Ameri-  
can mother. Nothing will persuade  
some of the smaller of the chil-  
dren that she is not their real moth-  
er.

Most of the orphans lost one or  
both parents during the Great War  
so that they scarcely know what it  
is to have a real parent. Nor did  
they know what childhood was un-  
til the Americans supplied them  
with toys, games, pictures, taught  
them the spirit of play, and made  
it possible for them to romp and  
frolic on the broad fields of their  
native country. To see great mas-  
ses of them at play, in their imma-  
culate garments of white, their clean  
bronzed, happy faces, is a sight  
that cannot fail to affect the Ameri-  
can visitor's pride and emotion.

Before the Americans came to  
Armenia 80 per cent of these chil-  
dren were affected with trachoma,  
conjunctivitis and other eye dis-  
eases. All were suffering acute-  
ly from the effects of inanition and  
exposure. The death rate was  
about 50 a day. Young physicians  
from the United States army and  
American nurses took the chil-  
dren in hand and brought them  
back to health and happiness. To-  
day the death rate is about one ev-  
ery three months.

VIENNA, Oct. —Some old  
birds have been using the Vienna  
zoo as a stopping place. The re-  
cords show the death recently of a  
vulture, aged 108 years, and an  
eagle aged 104.

## SHAMROCK MAN WINS CONTEST

Total Amount on the Wheel Was  
Two Hundred Twenty-Nine Dol-  
lars, Twenty-Seven Cents.

The Citizens Bank have finished  
checking up the tickets for the  
guessing contest which took place  
during the fair week and it has  
been found that the first prize,  
ten dollars in gold, was won by J.  
W. Yeary of Shamrock, Ky. The  
correct guess was two hundred and  
twenty nine dollars and 27. Four  
persons tied for second place, each  
guessing two hundred and twenty  
eight dollars and forty one cents,  
these being E. G. Healy, 118 Lear-  
wood Road, City, W. B. Oaks, of  
this city, V. C. Huff, 126 19th  
street, Middlesboro and W. L.  
Sharp Jr. of Harrogate Tennessee.  
The prize offered was five dollars  
in gold. The five dollars will be  
divided among these, each receiv-  
ing a dollar and a quarter. The  
third prize two dollars and fifty  
cents in gold was won by Cornelia  
Collingsworth, E. Cumberland Ave.  
city. Her guess was two hundred  
and twenty eight dollars. The win-  
ners will please call at the bank  
at their earliest convenience and  
receive their winnings.

The total amount on the wheel  
was two hundred and twenty nine  
dollars and twenty seven cents.  
There was an aggregate of four  
thousand five hundred guesses  
made. The largest amount guessed  
was twenty-five thousand dollars  
and the smallest amount guessed  
was zero, in spite of the fact that  
people were told that the face of  
the wheel was covered with money.  
Three hundred and eighty peo-  
ple were guessers in the two hun-  
dred class, forty six guessed two  
hundred even, forty people guessed  
two hundred and fifty, this seem-  
ing to be the most popular guess.

tion of the \$200,000,000 Dawes

## Cycle Riders Will Be Present In Large Numbers.

## CYCLE FIREWORKS

Many Unusual Features Will Be  
Staged By Cyclists on  
November the  
Eleventh.

One of the high-class features  
which has been assigned a promi-  
nent place on the American Legion's  
Armistice Day Celebration pro-  
gram at Middlesboro on November  
11th is the motorcycle circus. The  
attraction is under the direct su-  
pervision of William Colson of Col-  
son's Motorcycle garage. Mr. Col-  
son stated this morning to a rep-  
resentative of the Middlesboro  
Daily News that this attraction  
will be built up and staged in the  
most approved metropolitan style.

Cycle riders from every section  
of Southeastern Kentucky, Vir-  
ginia, and Tennessee will partici-  
pate. Patrol duty during the entire day  
will be executed by the cycle rid-  
ers. The circus proper will be par-  
ticipated in by well known amateur  
and professional riders from a num-  
ber of the larger cities. Solo speed  
tests, standing speed exhibitions,  
erect riding, horizontal riding, foot-  
board riding, triple riding acts and  
motorcycle gymnastics are a few of  
the features which will be presented  
for the approval of the public.

Mr. Colson staged a similar show  
or circus at the LaFollette Fair and  
it proved to be one of the outstand-  
ing features of the entire fair.

While the motorcycle circus proper  
will be a daylight feature Mr.  
Colson has arranged to "Run the  
Gauntlet" just prior to the fire-  
works program at night. This dis-  
tinct feature consists of having a  
motorcycle with side car attached  
traverse the entire length of Coun-  
tyland Avenue at high speed. The  
side car is loaded with a cargo of  
specially prepared fireworks which  
are discharged while the cycle and  
side car are under way. This said  
to be one of the most beautiful and  
stirring spectacles imaginable.

This same stunt was featured at  
last year's Armistice Day Celebra-  
tion at Atlantic City and was high-  
ly complimented by the New York  
newspapers. The motorcycle cir-  
cus program will be announced in  
(Continued to Fourth Page)

## OLD AND NEW CIVILIZATIONS

The proposal submitted to the League of Nations for its co-operation in removing to South America a large number of the Armenian refugees driven from their homes by the Turks, is an enlightening commentary on the failure of a so-called civilized nation to establish order and security of life and property within its boundaries. Located in the region of early civilizations, Armenia has been the prey of successive hordes of invaders, and its people have been subjected to the tyrannical rule of aliens, who sought to stamp out their religious and national aspirations. Following the defeat of the Turks in the World War, it was confidently hoped by the Armenians that their age-long persecution by the Turks was at an end, but the failure of the former allied great powers to unite in checking the activities of the Turks after their defeat resulted in wholesale evictions from their homes of hundreds of thousands of these unhappy people.

One of the first countries to accept Christianity, Armenia has steadfastly stood by its faith and has refused to bow to the Mohammedan demand that its people replace the Bible with the Koran. Adhering to their convictions, these people are seeking a country where they will be free to worship according to the Christian faith, and it is believed that conditions are favorable for their emigration on a large scale to South Africa.

The contrast between Turkish mis-rule and the peace and justice now happily established throughout the South African Union is a striking illustration of the relative standards of Christianity and Mohammedanism. To what 100 years ago was a land inhabited chiefly by savage tribes there has been brought a settled government, where life and property are as safe as in any other part of the world. There is no question, that, if they emigrate to the South African territories, the Armenians will be perfectly free from attacks because of their religion and that wealth which they may create will be held, without danger, as in Turkey, of being seized by rapacious tax gatherers. The new order prevails in what a brief period ago was primitive savagery. In the land of their origin the Armenians are persecuted, massacred, robbed and cast out.

When what is called "British Imperialism" is assailed, because of the assimilation of regions in the far places of the earth, it should be remembered that wherever the Empire has gone it has established law, order, peace and justice, and that under British rule the peoples of the annexed countries enjoy greater safety and protection in their rights than were afforded under pre-existing conditions.—Christian Science Monitor.

## THAT TARIFF PLANK

The democratic platform says that the Fordney-McCumber Tariff is: "The most unjust, unscientific and dishonest tariff measure ever enacted in our history."

Under the operation of this tariff measure 5,000,000 unemployed workers have found work at the highest level of wages ever known; our exports increased more than \$1,500,000,000, and thirdly, our duties from imports have added some \$1,100,000,000 to our National Treasury.

When the Bryan Brothers get to explaining that democratic tariff plank they will have to avoid facts, for there are many more to add to the three presented above. For instance we have sold in two years \$3,000,000,000 worth of manufactured goods abroad. Whom have we cheated? Whom have we deceived? None. The tariff has helped and is helping every man, woman and child, except the pawnbroker, in the United States.

## Did You Ever Stop to Think

By E. R. Waite, Secretary, Shawnee, Okla., Board of Commerce.

THAT the selling of quality merchandise by truthful advertising means selling satisfaction.

THAT advertisements give the people a particular chance to know about new things that are unusually appealing and of exceptional value.

THAT all extra good buys in the way of special bargains are always advertised.

THAT persistent advertisers extend a message of welcome. They are proud to have the opportunity to show their customers what quality and service means.

THAT a business that does not give quality and service won't last long. A business that does not serve the community well, is soon known as a dead one and people trade elsewhere.

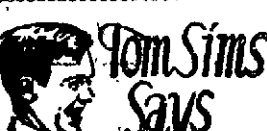

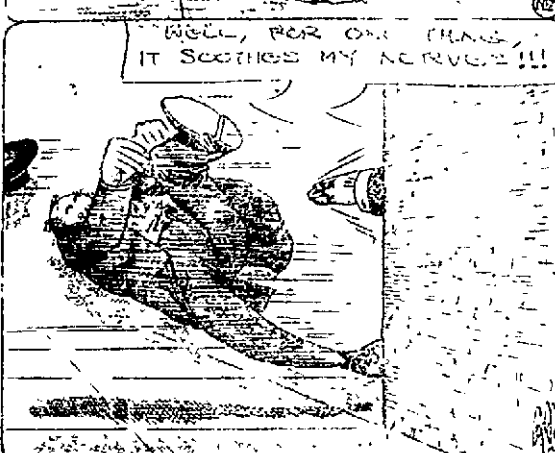

THAT it is only of the goods of known value that retain the confidence of the buying public. Goods of uncertain value are in no demand.

THAT quality is a prime necessity in merchandise. "Just-as-good" is a source of peril to any concern selling it. Customers must not be only satisfied at the time of buying but for a long time afterwards.

BUSINESS CONCERNS that are persistent, truthful, advertisers, create in the minds of the public favorable opinions toward themselves.

## PROHIBITION IS BEING ENFORCED

According to Commissioner Haynes Federal Agents are Bringing in the Bootleggers

Associated Press.  
DAYTON, Oct. 17.—Over 15,000 bootleggers and moon-shiners arrested by federal agents last year came to the attention of the prohibition law, said Federal Prohibition Commissioner R. A. Haynes, speaking before the convention of the Dayton Council of Churches here tonight. "This number does not, of course, include the many thousands of arrests made by state county and other local officials. That number will no doubt greatly exceed the arrests made by federal agents, since there are about a quarter of a million such officers as compared with about 1,500 federal men. The prohibition law is

no respecter of persons. The wealthy bootlegger Hennes, of Ohio, the socially prominent La Montagne of New York, and the political influential of Gary, Indiana, and Pittsburgh violators landed in cells just as did their poor bootlegging brothers.

"We have made it more difficult for the illicit trade to get supplies today. The four principal sources of supply have been cut off. Withdrawals of whiskey on permit are only about one percent of the consumption prior to prohibition, and very little is escaping into illicit channels. During the last fiscal year about 1,800,000 gallons of whiskey were released for medicinal purposes. In 1921, the first full fiscal year, there were released 5,671,860 gallons. The augmentation and increased efficiency of the coast guard is stopping the tide of smuggled liquors. While legitimate business is using more denatured alcohol than ever, diversion to the bootleg trade are decreasing in Philadelphia and New York, two of the most difficult centers, with seizures of specially denatured alcohol have been cut one-third in the last six months. Much of that diverted has been seized and destroyed. The practice in some sections at first prevalent, of making illicit liquor in the home, has been practically discontinued. The results were not worth the trouble. Moon-shining as an illicit trade was struck some heavy blows during the last year.

In the 1923 fiscal year 158,132 stills and parts of stills and 14,466,414 gallons of distilled spirits malted in the home, etc., were seized. In 1923 over 5,000 out mobiles were seized. More than 230 boats illegally engaged in liquor work were seized in 1923, 4,977 automobiles and 141 boats were seized.

The above figures do not, of course, include seizures by state and other local officials. Where the states have strong prohibition laws, our problem is fairly easy. States like New York, Maryland and Massachusetts, which have no state law, practically invite the liquor criminals. The federal force was never intended to police the United States. Where given co-operation by local officials and supported by state laws, we have every reason to be proud of the record made in such short time. Ohio is one of these states. Reports show that Ohio is right in the front ranks with reference to enforcement. This is due to the splendid support that Director Russell receives from the local officials. In Dayton especially

ly, Director Russell tells me, is this true. The vice squad department and the police department are always at the service of the federal department. Since Mr. Russell has been director, over three years, about 125 persons from Dayton and Montgomery counties have been prosecuted in the federal court at Dayton and sentenced to the federal penitentiary, jail and workhouse and to pay fines totalling about \$25,000. Included in these cases was the Swakal and Kender whiskey rings, prosecuted for conspiracy. In the state courts, with the assistance of local authorities, 70 persons were prosecuted during the same period, resulting in fines of over \$31,000.

"Prohibition has not been a drain on the public purse. The appropriation for enforcement of the prohibition law last fiscal year was \$8,350,860. Fines imposed on convicted violators were over \$7,000,000, more than \$5,000,000 of which has already been collected and turned into the United States Treasury. Breweries paid into the treasury nearly \$1,000,000 last year in compromise of civil liabilities against

Clergyman is Close  
To Century Mark

Associated Press.  
PONTYPOOL, Wales, Oct. 17.—Rev. Christopher Cook, rector of Mamhillad, the oldest beneficed clergyman in the United Kingdom and in all probability the oldest active clergyman in the world, will shortly celebrate his 100th birthday.

Mr. Cook was born in September, 1824 and has held the living at Mamhillad for 72 years. He has a son 75 years old, who is vicar of Ravelston, Llanillo. His father served as a naval surgeon in the Battle of Trafalgar, and died at a great age. The centenarian clergyman has not preached for some years, but he is diligent and regular in his attendance at the services of the church. He is surprisingly vigorous, enjoys his pipe and takes an active interest in his garden, where he has spent much time the past season.

The board of regents held the check to be forfeited through Cole's passing a \$10,000 check of Cole's.

## Movie Editor Applies Photoplay Technique To Cooking Problems

"Come out of the kitchen" is the cry of the feminists, but Adele Flitchey, editor of the "Movie Weekly," believes that coming into the kitchen, once in a while, is a very good thing for women who work at high speed in their chosen profession. Miss Flitchey, who is known as a veritable "human dynamo" in the screen magazine field, in which she is an outstanding personality, lives up to her belief and is shown in the act of concocting "cheese drops," a toothsome delicacy.

This is her recipe:  
Add to 3 1/2 tablespoons of flour, two tablespoons of melted lard and blend together until smooth. Remove from fire, add four teaspoons grated cheese, 1/4 teaspoon salt, and a dash of red pepper. Fold in stiffly beaten whites of three eggs, and drop from end of spoon onto greased baking sheet about one inch apart, and bake from twelve to fourteen minutes in a moderate oven. Serve hot in folded napkin with salad course.

## Postal Romance Then Marriage

Associated Press.  
MANILA, Oct. 16.—The marriage of two lepers was celebrated recently at a nuptial mass at San Lazaro, the contagious hospital in Manila, after which the couple were sent to Cullion Island, where some 5,500 lepers are confined and where they hope to be cured of the disease.

The romance started in San Lazaro and the courtship was carried on chiefly by mail, the superintendent of the hospital believing this the most dignified manner for the young native lovers to exchange messages.

After the ceremony a wedding breakfast was given the couple by their friends in the hospital and a few hours later they departed for the leper colony.

AN ORDINANCE providing for the improvement of certain streets, alleys and public ways in the City of Middlesboro in Bell County, Kentucky, by constructing, reconstructing, resurfacing, altering and repairing the paving of said streets and the sidewalks, curbing, guttering, sewers, catch basins and other drainage facilities thereon, and including the intersections thereof at the exclusive cost of the

owners of the property abutting upon such improved streets and providing for the payment of the same upon the ten (10) year annual installment payment plan, and levying a tax to pay the same and providing for the sale of bonds to pay the cost thereof in anticipation of the collection of the special tax and assessment levied and to be collected to pay said cost upon such ten year plan.

### Let's Have One More Picnic

What is more delightful to think of than one more picnic party this fall. Since we have the machine the great problem of getting to and from our destination has been solved. A fall day, a faithful car, a party of friends and some well-filled hampers, these are the ingredients of a delightful day, and whether you live in town, suburb or country, you will be wise if you steal as many such days as possible away from the familiar scenes of your home, where you can spend the entire day in the sunshine and open.

Even though you may not have a car, drop everything and take advantage of glorious weather and spend a day in the woods or park. The memory of the rest will go a long way in persuading you to go again.

A few years ago even the least pretentious excursion caused a great amount of extra work and readjustment. It was often a physical impossibility for the busy housewife to manage even a half day's pleasure trip with the children, but with the many delicious package foods all ready for just such occasions a picnic basket, the delight of young and old, can now be quickly packed.

### Musical Feast For Harmony Fans

There will be a real musical feast for local harmony fans when the Roy D. Smith's Scotch Highlanders' Band of St. Petersburg, Fla., comes to the Manring Saturday, matinee and night. The band is a top-notch musical organization with a highly pleasing record on both sides of the Atlantic and its instrumentalists and soloists are all picked players. Most of them graduated from the various musical conservatories of America and Europe.

Headed by Roy D. Smith himself, the band will include such well known musicians as Frank Gilum, famous trombone soloist; Turner Nearing, cornet soloist; George Freborg, xylophone wizard; S. Hayl Mosher, clarinet soloist; Chas. Eleya, baritone; Harold Stockton, whistler and bird imitator; Dora Hilton, soprano; Bobbie Brothier, the Scotch tenor and others.

Referring to the Scotch Highlanders' Band the New York Herald said: "No more picturesque company of musicians have ever entertained New York music lovers and no better music has ever charmed their ears." Roy D. Smith, unlike most bandmasters seems to have a faculty of selecting appropriate programs and his opening concert at the Central Palace last night was an unequalled hit.

The band appears in the picturesque and gaudy dress of the famous Gordon Highlanders and its repertoire includes many selections from all of the great masters as well as modern popular hits. A special matinee will be given at 2:30. No reserved seats.

### How Do You Wear Your Headgear?

Associated Press.  
LONDON, Oct. 17.—The latest explorations into the real psychology show that a man's character is revealed by the way he puts on his hat, or so at least Dr. C. W. Kimmins, chief education officer, has been telling the London County Council.

"If I wear my hat well over my forehead it gives me a solemn thoughtful appearance," Dr. Kimmins said. "When I push it back beyond the usual position, the whole world knows me as a happy-go-lucky man. Tilted on the right side, I am nothing but a rowdy, but the minute I let it slide over to the left I lose my social status completely, for I become a mental deficient."

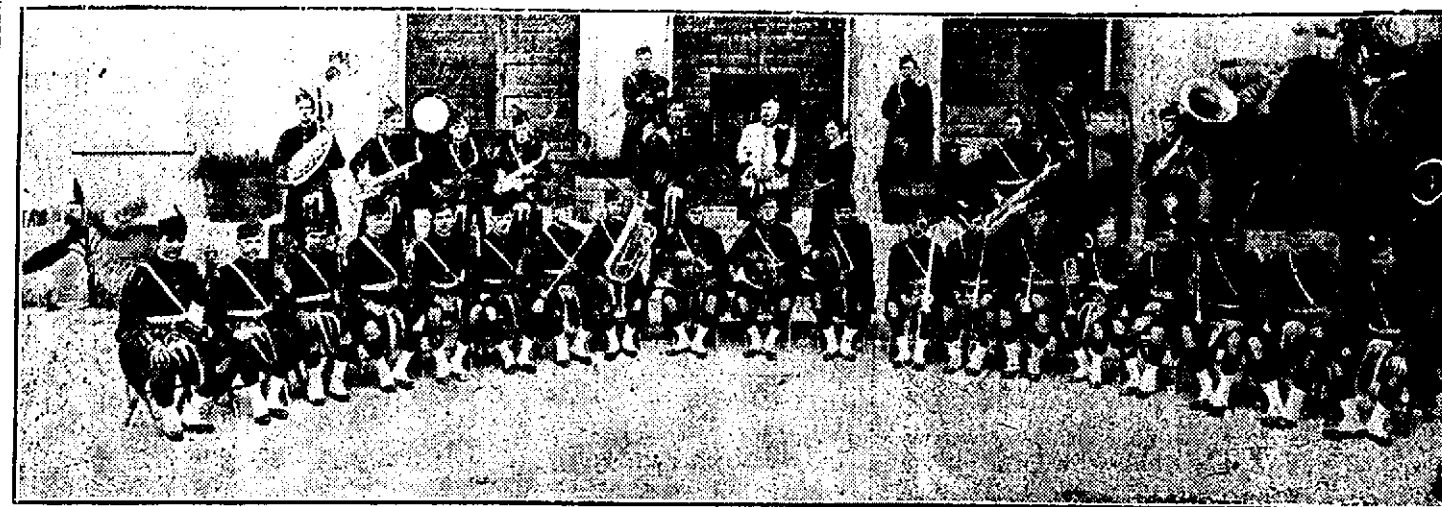

"I always examine my customer's hats as they come into the shop," said one London hatter. "Before they have given their order I have formed by conclusions with regard to the kind of hat they need."

"A man with a fashionably shaped bowler tilted forward over his right eye will want an expensive but but fashionable hat. The man who wears his lid dead straight, will in all probability demand a serviceable hat and will possibly be particular about the price."
